**KO MANUFACTURING INC.**

## POWER KLEEN™

**PRODUCT NUMBER 9115**

### RESEARCH

Through R&D and field testing, KO Chemists combine creativity with technology to bring you products with the performance you require. Using our sophisticated KO lab we continually test new products, existing products, and our manufacturing processes for effectiveness and affordability. When a new product meets our requirements, it goes to a select group of end-users for real-world evaluation. Only after testing, evaluating, and re-testing is a KO product ready for distribution. We invite you to come and be a part of a winning solution.

**Attention:** Refer to our Material Safety Data Sheet regarding hazards, personal protection, and disposal of this product.

Techsheat Modified on 1/14/2005

### PRODUCT DESCRIPTION:

9115 is a powdered compound formulated for washing passenger cars and trucks in fully or semi-automatic car wash systems and for hand washing. It can also be used as a general light duty cleaner.

### INSTRUCTIONS:

**Automatic Systems and Self-Serve:** For high pressure washing mix 1 pound of 9115 to every 5 gallons of water and set metering equipment to deliver approximately a 20:1 dilution of this solution going on the surface. Final dilution will be 800:1.

For low pressure presoaking mix 1 pound of 9115 to 5 gallons water and set metering equipment to deliver a 10:1 dilution of this solution going on the surface. Final dilution will be 400:1.

Suggested dilutions only. Use as a starting point. Dilutions may vary depending on time of year. Adjust accordingly for best results.

### CUSTOMER BENEFITS:

- Biodegradable
- Excellent penetrating power
- Higher Alkalinity for removal of heavy soils and grime
- Non-toxic
- Very stable in hard water
