KO MANUFACTURING INC.

TRAILER BRITE™

PRODUCT NUMBER 355

RESEARCH

Through R&D and field testing, KO Chemists combine creativity with technology to bring you products with the performance you require. Using our sophisticated KO lab we continually test new products, existing products, and our manufacturing processes for effectiveness and affordability. When a new product meets our requirements, it goes to a select group of end-users for real-world evaluation. Only after testing, evaluating, and re-testing is a KO product ready for distribution. We invite you to come and be a part of a winning solution.

Attention: Refer to our Material Safety Data Sheet regarding hazards, personal protection, and disposal of this product.

Techsheet Modified on 4/25/2006

PRODUCT DESCRIPTION:

Trailer Brite is a superb liquid cleaner formulated for car, truck, and bus washing. This unique blend of builders, chelators, and surfactants quickly penetrates and removes tough road soils. Trailer Brite is ideal for removing tough road film from trucks and trailers, heavy equipment, fleet vehicles, or any other surface that needs a tough cleaner. It is non-flammable, non-phosphate, and biodegradable.

PRODUCT INSTRUCTIONS:

Truck and Trailer Cleaning: Use Trailer Brite from 60:1 to 30:1 depending on soil load and temperature. May be applied under low pressure or through a hot water pressure unit.

Engine Degreasing: Use at 10:1. Apply directly to engine and allow to stand for 2 to 3 minutes. Rinse with high pressure.

CAUTION: Avoid using on painted surfaces and aluminum at heavy concentrations.

KEY POINTS:

Concentrated for economical use.
Excellent rinsing properties.
Safe on painted surfaces
