KOOLER CLEANER

PRODUCT NUMBER 3214

RESEARCH

Through R&D and field testing, KO Chemists combine creativity with technology to bring you products with the performance you require. Using our sophisticated KO lab we continually test new products, existing products, and our manufacturing processes for effectiveness and affordability. When a new product meets our requirements, it goes to a select group of end-users for real-world evaluation. Only after testing, evaluating, and re-testing is a KO product ready for distribution. We invite you to come and be a part of a winning solution.

PRODUCT DESCRIPTION:

Kooler Cleaner is a ready-to-use, heavy duty detergent designed specifically to withstand freezing at temperatures of 24F and above. Kooler Cleaner is ideal for cleaning large cooler areas without costly shut-downs of the cooler units. It is designed for use in floor-scrubbing equipment, but can be used by mopping. Kooler Cleaner does not contain any toxic glycols nor does it contain the highly poisonous and flammable chemical methanol.

INSTRUCTIONS:

For protection from freezing at temperatures of 24F and above, apply directly to surface to be cleaned. Some scrubbing may be necessary. Remove residue by mopping or any other method of effective removal. Ideal for automatic floor scrubbing machines.

CUSTOMER BENEFITS:

Biodegradable
Protection to -10F.
Excellent for cleaning walk-in coolers, freezers, and refrigerated trucks.

Attention: Refer to our Material Safety Data Sheet regarding hazards, personal protection, and disposal of this product.
