KO MANUFACTURING INC.

ALL CLEAN™ Plus

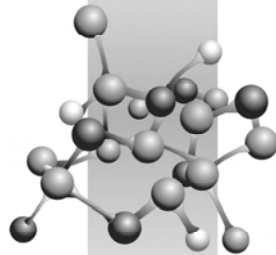

PRODUCT NUMBER 227

RESEARCH

Through R&D and field testing, KO Chemists combine creativity with technology to bring you products with the performance you require. Using our sophisticated KO lab we continually test new products, existing products, and our manufacturing processes for effectiveness and affordability.

When a new product meets our requirements, it goes to a select group of end-users for real-world evaluation. Only after testing, evaluating, and re-testing is a KO product ready for distribution. We invite you to come and be a part of a winning solution.

Attention: Refer to our Material Safety Data Sheet regarding hazards, personal protection, and disposal of this product.

Techsheet Modified on 6/6/2006

PRODUCT DESCRIPTION:

All-Clean Plus™ is a specially formulated blend of solvents, low-foaming surfactants, builders, and corrosion inhibitors designed for parts cleaning of a variety of metals in high pressure spray-jet cabinets. This non-caustic, nonflammable, biodegradable, quick-release, and water soluble detergent is ideal for automated dispensing systems, safe for water-reclaim units, and is California and EPA VOC exempt.

PRODUCT INSTRUCTIONS:

For spray cabinets, mix 6 ounces of All-Clean Plus to every gallon of water for all-purpose industrial cleaning.

For high pressure spray cabinets (300 psi or higher), mix 2 to 3 ounces of All-Clean Plus to every gallon of water.

Be sure water temperatures are between the range of 140-180 degrees F. Soil conditions and types of equipment may vary. Adjust concentrations for best results.

KEY POINTS:

- Excellent wetting ability.
- VOC Exempt.
- Compatible with automated dispensing systems.
- Ideal hot tank and spray cabinet operations.
- Rapid removal of soil.
- Quick-release detergent for reclaim systems.
- Biodegradable.
