KO MANUFACTURING INC.

ALUMINUM SAFE METAL CLEANER

PRODUCT NUMBER 228

RESEARCH

Through R&D and field testing, KO Chemists combine creativity with technology to bring you products with the performance you require. Using our sophisticated KO lab we continually test new products, existing products, and our manufacturing processes for effectiveness and affordability. When a new product meets our requirements, it goes to a select group of end-users for real-world evaluation. Only after testing, evaluating, and re-testing is a KO product ready for distribution. We invite you to come and be a part of a winning solution.

Attention: Refer to our Material Safety Data Sheet regarding hazards, personal protection, and disposal of this product.

Techsheet Modified on 12/17/2002

PRODUCT DESCRIPTION:

Aluminum Safe Metal Cleaner cleans quickly and thoroughly, and will not plug heater coils. It produces no irritating fumes, and is safe, non-corrosive and economical. Aluminum Safe Metal Cleaner is equally effective in all types of pressure-steam equipment. It is a light to medium duty steam cleaning compound which is safe on aluminum and other soft metals. Aluminum Safe Metal Cleaner has a rust inhibitor added to the formula to help prevent spray cabinets and parts from rusting.

INSTRUCTIONS:

Aluminum Safe Metal Cleaner will not damage plastics, rubber or fabrics. It is safe on the following metals: aluminum, iron, zinc, cadmium, lead, magnesium, chromium and steel.

Soak Tank Cleaning: Mix 1/2 to 1 pound of 228 to every gallon of water.

Spray Cabinet Washer: Mix 1/4 to 1/2 pound 228 to every gallon of water depending on soil load
