KO MANUFACTURING INC.

AQUA-SHIELD

PRODUCT NUMBER 9245

RESEARCH

Through R&D and field testing, KO Chemists combine creativity with technology to bring you products with the performance you require. Using our sophisticated KO lab we continually test new products, existing products, and our manufacturing processes for effectiveness and affordability.

When a new product meets our requirements, it goes to a select group of end-users for real-world evaluation. Only after testing, evaluating, and re-testing is a KO product ready for distribution. We invite you to come and be a part of a winning solution.

PRODUCT DESCRIPTION:

Aqua-Shield is an all-surface protectant that repels rain and creates a shield that bonds to paint, glass, chrome and other surfaces. Contains UV inhibitors and a proprietary blend of reactive silicone polymers for long lasting protection and shine.

INSTRUCTIONS:

For tunnel, automatic and self-serve car washes. Set metering equipment to deliver Aqua Shield at a dilution of 1 part chemical to a range of 64 to 128 parts water. For best results, do not allow product to dry on surface.

CUSTOMER BENEFITS:

- Long lasting protection, and shine.
- Repels rain
- Contains UV inhibitor

Attention: Refer to our Material Safety Data Sheet regarding hazards, personal protection, and disposal of this product.
