

Drum In a Box

Industrial Detergents

Advantages:

- Saves Space
- Easy to Handle, Store, Stack, Mix & Pour
- Stays Stable
- No Used Drums to Haul
- Saves Money on Freight

1 Kit + 55-gal Water = Concentrated Formula

Each Formula Is:

- Phosphate Free
- Not UPS Hazardous
- Biodegradable
- Non-Toxic
- VOC Compliant

1 Kit + 30-gal Water = Heavy Duty Concentrate Formula

2 Kits + 55-gal Water = Super Concentrated Formula

Hyperstack Technology

Each of these formulas is an exceptional cleaner when mixed into a 55 gallon container with water. However, sometimes extremely challenging conditions call for an extremely concentrated detergent.

Hyperstack Technology allows operators the flexibility to strengthen or ~~Stack~~+two kits of the same formula to create a ~~Hyper~~+concentrated product without concerns about product stability.

This is especially useful for:

- Extra Heavy Cleaning Conditions
- When Operating Through Automated Systems that Deliver a Highly Diluted Final Product.

GENERAL	<p>DRUM IN A BOX™</p>  <p>JABS™ FORMULA 429</p> <ul style="list-style-type: none"> ◆ Simply mix the contents of this kit with water to create a Professional Strength Multi-Purpose Cleaner & Degreaser ◆ Ideal for Tackling a Wide Variety of Cleaning Tasks ◆ This all liquid kit allows for minimal mixing ◆ Safe in Steam Cleaners 	PREMIUM FLEET	<p>DRUM IN A BOX™</p>  <p>ROAD-PRO™ FORMULA 431</p> <ul style="list-style-type: none"> ◆ Simply mix the contents of this kit with water to create a Premium fleet wash detergent ◆ Excellent foaming action allows for longer dwell time ◆ Exceptional at removing tough road film & grime from cars, vans, buses & tractors ◆ Contains a citrus fragrance for maximum customer appeal
