

# PUMP STANDS

Equipment for Self-Serve Car & Truck Wash, Car Dealerships and Commercial Wash Bays

Heavy Duty Steel Frame with Gloss Black, Powder Coat Finish and Stainless Steel Access Panels (3), which make our equipment built to last. Natural / LP On Demand Gas Fired 180,000 Input BTU Burner Systems generate approximately 130 deg. F water cost effectively. Belt driven, triplex oil bath pumps, float tanks and safety valves insure reliable performance. Unit comes standard with 2 solenoids (adjustable) that are remotely controlled by 24V. Optional electronic remote controls the pump, burner, and two chemical solenoids. Our Car Wash Stands are backed by the BEST Warranty in the industry.

Gas Valve, Float Tank, Relief Valve, High Limit Switch, and Control Fuses are conveniently located behind the Upper Access Door.
