KO MANUFACTURING INC.

DYNA FOAM BLUE

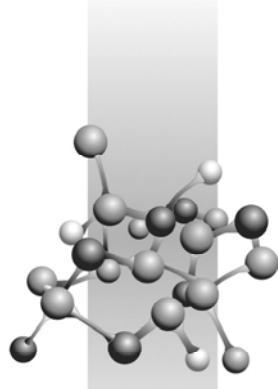

PRODUCT NUMBER 9307

RESEARCH

Through R&D and field testing, KO Chemists combine creativity with technology to bring you products with the performance you require. Using our sophisticated KO lab we continually test new products, existing products, and our manufacturing processes for effectiveness and affordability.

When a new product meets our requirements, it goes to a select group of end-users for real-world evaluation. Only after testing, evaluating, and re-testing is a KO product ready for distribution. We invite you to come and be a part of a winning solution.

Attention: Refer to our Material Safety Data Sheet regarding hazards, personal protection, and disposal of this product.

Techsheet Modified on 4/4/2005

PRODUCT DESCRIPTION:

Dyna Foam Blue is an economical, high foaming, liquid concentrate designed for use in foam brush applicators or as a curtain lubricant in tunnel washes. Its high emulsifier content allows for quick penetration and rinsing of soil particles. The high foaming characteristic enables the product to work longer on the surface of the vehicle. Dyna Foam Blue provides in-bay blue colored foam with a cherry scent.

INSTRUCTIONS:

Foam Brush Applicators and Tunnel Curtains: Dilute 1 part Dyna Foam Blue with 64 parts water and apply through system. For best foaming results, inject air into the final applicator.

Suggested dilutions only. Use as a starting point. Adjust accordingly for best results.

CUSTOMER BENEFITS:

- Blue foam with a cherry scent.
- Easy to use.
- Biodegradable.
- High foaming liquid concentrate.
- Cost effective.
- Quickly penetrates heavy build-up.
- Non-toxic.
- Non-streaking rinse.
