Payment Solutions

CRYPTOTAP PLUS

- CryptoTap Plus is a contactless EMV reader that allows you to accept payments from credit and debit cards. CryptoTap Plus also works with mobile payments including Samsung Pay, Apple Pay, Google Pay, and others.
- The CryptoTap Plus reader connects to the CryptoPay Wireless Network.
- Stand Alone Unit. Outputs connect directly to car wash timer.
- Smaller footprint allows mounting in most coin boxes.
- All transactions are EMV.
- Built in QR Reader.
- Brilliant Color LED's surround Tap Unit.
- No Wireless Fees / No Minimum Quantities.
- CryptoTap Plus utilizes an external button for adding additional credits or stopping the count up cycle. Button can be configured for green or red illumination.
- CryptoTap Plus has a built-in barcode reader ready for optical reading of QR Codes.
