KO MANUFACTURING INC.

GLASS CLEANER

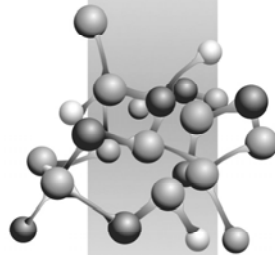

PRODUCT NUMBER 9420

RESEARCH

Through R&D and field testing, KO Chemists combine creativity with technology to bring you products with the performance you require. Using our sophisticated KO lab we continually test new products, existing products, and our manufacturing processes for effectiveness and affordability.

When a new product meets our requirements, it goes to a select group of end-users for real-world evaluation. Only after testing, evaluating, and re-testing is a KO product ready for distribution. We invite you to come and be a part of a winning solution.

PRODUCT DESCRIPTION:

Glass Cleaner is a non-ammonia, multipurpose, hard-surface cleaner that leaves a streak-free finish on glass. This extra-fast drying formula is safe for all surfaces, making it ideal for all types of cleaning. It does not contain highly flammable and potentially lethal methanol, making it an outstanding alternative to traditional winter windshield fluids.

INSTRUCTIONS:

Spray onto surface and wipe with a soft, lint-free towel.

CUSTOMER BENEFITS:

- Does not contain flammable and toxic methanol.
- Ideal as a winter windshield fluid.
- Dilutable with water.
- Economical.
- Biodegradable.

Attention: Refer to our Material Safety Data Sheet regarding hazards, personal protection, and disposal of this product.
