KO MANUFACTURING INC.

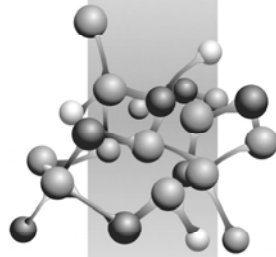

FLEET KLEEN™ HD

PRODUCT NUMBER 9140

RESEARCH

Through R&D and field testing, KO Chemists combine creativity with technology to bring you products with the performance you require. Using our sophisticated KO lab we continually test new products, existing products, and our manufacturing processes for effectiveness and affordability. When a new product meets our requirements, it goes to a select group of end-users for real-world evaluation. Only after testing, evaluating, and re-testing is a KO product ready for distribution. We invite you to come and be a part of a winning solution.

Attention: Refer to our Material Safety Data Sheet regarding hazards, personal protection, and disposal of this product.

Techsheet Modified on 10/27/2004

PRODUCT DESCRIPTION:

Fleet Kleen HD is designed specifically designed for presoaking passenger cars and trucks in fully or semi-automatic car wash systems. The unique blend of complex phosphates, alkaline builders, and non-ionic surfactants provide the optimal level of alkalinity and wetting properties for maximum penetration of soils.

INSTRUCTIONS:

Automatic and Hand Bay Systems: Set metering equipment to deliver solution at 64 to 80:1 depending on time of year for presoaking and 120:1 to 180:1 for exterior washing.

Suggested dilutions only. Use as a starting point. Dilutions may vary depending on time of year. Adjust accordingly for best results.

CUSTOMER BENEFITS:

- Easy to use.
- Biodegradable.
- Rapid removal of soils and grime.
- Quick rinsing.
- Safe on all vehicle surfaces.
- Stable in hard water.
