KO MANUFACTURING INC.

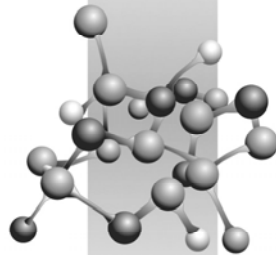

HYDRO-SOLVE™

PRODUCT NUMBER 513

RESEARCH

Through R&D and field testing, KO Chemists combine creativity with technology to bring you products with the performance you require. Using our sophisticated KO lab we continually test new products, existing products, and our manufacturing processes for effectiveness and affordability. When a new product meets our requirements, it goes to a select group of end-users for real-world evaluation. Only after testing, evaluating, and re-testing is a KO product ready for distribution. We invite you to come and be a part of a winning solution.

Attention: Refer to our Material Safety Data Sheet regarding hazards, personal protection, and disposal of this product.

Techsheet Modified on 10/26/2004

PRODUCT DESCRIPTION:

Hydro-Solve is a nonflammable, nontoxic, non-corrosive liquid concentrate which removes grease and grime from most surfaces quickly and efficiently. It is a blend of solvents, emulsifiers, and builders, specifically designed for use in parts washers. It quickly penetrates grease and grime found on most tools, engine parts, and any other ferrous surfaces. Bio-Solve also contains corrosion inhibitors which protects metal surfaces from flash rusting. It is a multipurpose cleaner which can be used for a complete cross-section of jobs.

INSTRUCTIONS:

For small Hydro-Solve and Scrubb-A-Tubb Parts Washers: Dilute HydraSolve at 2 1/2 gallons to 7 1/2 gallons of water.

For large Bio-Solve and "Scrubb-A-Tubb" Parts Washers: Mix 5 gallons of Bio-Solve with 15 gallons of water.

CUSTOMER BENEFITS:

- Biodegradable.
- Contains a corrosion inhibitor to help protect metal from flash rust.
- May be used on a variety of metal surfaces.
- No irritating fumes.
- Non-corrosive to skin tissue.
- Nontoxic.
- Penetrates quickly to remove heavy grease and grime loads.
