KO MANUFACTURING INC.

PRE-CLEAN™ PLUS

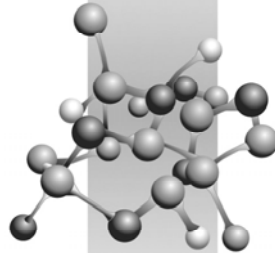

PRODUCT NUMBER 229

RESEARCH

Through R&D and field testing, KO Chemists combine creativity with technology to bring you products with the performance you require. Using our sophisticated KO lab we continually test new products, existing products, and our manufacturing processes for effectiveness and affordability.

When a new product meets our requirements, it goes to a select group of end-users for real-world evaluation. Only after testing, evaluating, and re-testing is a KO product ready for distribution. We invite you to come and be a part of a winning solution.

Attention: Refer to our Material Safety Data Sheet regarding hazards, personal protection, and disposal of this product.

Techsheat Modified on 10/27/2004

PRODUCT DESCRIPTION:

Pre-Clean Plus is a heavy-duty, high alkaline cleaner for use in industrial hot soak tanks or spray cabinet washers. It routes out and removes heavy greases and carbons. Pre-Clean Plus is a powerful formula, with a long lasting solution, and a greater efficiency over long periods of time. Pre-Clean Plus has a rust inhibitor added to the formula to help prevent spray cabinets and parts from rusting.

INSTRUCTIONS:

Pre-Clean Plus is primarily for use on harder metals, but may be used on aluminum and other soft metals if there is a heavy buildup of grease and grime. There may be some blackening of the metal.

Soak Tank Cleaning: Mix from 1/2 to 1 pound of Pre-Clean Plus for every gallon of water depending on soil load.

Spray Cabinet Washer: Mix from 1/4 to 1/2 pound of Pre-Clean Plus for every gallon of water depending on soil load.

CUSTOMER BENEFITS:

- Excellent wetting ability.
- Free rinsing.
- Higher alkalinity for the toughest of soils.
- Ideal for hot tank and spray cabinet operations.
- Rapid removal of heavy grease, grime, and soil.
- Biodegradable
