BLACK ICE™

FORMULA 9211

Low pH Beading Rinse Aid

BENCHMARK™
FORMULA

DESCRIPTION

Black Ice™ is formulated specifically for the car wash industry as a **low pH** beading rinse aid with a unique licorice fragrance. Special ingredients leave a smooth, long lasting layer of protection, even on the sides of the vehicle, that promotes the beading of water. Its excellent beading of water is ideal for tunnel or automatic car wash systems with forced air dryers while its pleasing licorice fragrance makes it ideal for self-service bays.

AT A GLANCE

- > *Provides a smooth, even beading of water.*
- > *Unique in-bay licorice fragrance.*
- > *Ideal for tunnels and automatics.*

APPLICATIONS

Automatic Carwashes
Self-Serve Carwashes
Tunnel Carwashes

Truck Washing

DESCRIPTION:
A concentrated, beading rinse aid that gives a long lasting layer of protection. Provides instant beading action with a pleasing licorice scent.

DIRECTIONS:
For self-serve and automatics: Mix 1 gallon for every 256 gallons of water. Add 512:1 directly to vehicle.

INGREDIENTS:
Water, Propyl Glycol, Surfactant Blend, 2-Butoxy Ethanol, Phosphate, Carnauba Wax.

WARNING:
Caution! May cause eye irritation upon fire. Prolonged and repeated skin contact with car and irritation. Inhalation may cause headache, vomiting and nausea. Ingestion may cause nervous system depression. Wear solvent resistant gear when handling.

FIRST AID:
Eyes: Flush with water for 15 minutes and get medical attention, if irritation persists. Skin: Flush thoroughly with soap and water. Inhalation: Remove patient to fresh air. If breathing has stopped, give artificial respiration. Get medical attention. Ingestion: Call physician immediately. Do not induce vomiting.

ATTENTION: Refer to our MSDS regarding handling and disposal of this product.

IN CASE OF EMERGENCY: Call Chemtrec day or night for assistance and information concerning spilled material, fire, exposure, and other accidents. 1-800-424-9300

RESEARCH

Through R&D and field testing, KO Chemists combine creativity with technology to bring you products with the performance you require. Using our sophisticated KO lab we continually test new products, existing products, and our manufacturing processes for effectiveness and affordability. When a new product meets our requirements, it goes to a select group of end-users for real-world evaluation. Only after testing, evaluating, and re-testing is a KO product ready for distribution.
