CITRI BRITE™

FORMULA 204

Citrus based aluminum brightener and cleaner

DESCRIPTION

For operators becoming increasingly concerned with issues regarding worker safety, equipment corrosion, and discharge issues regarding fluoride. Citri-Brite™ is a revolutionary citric acid based aluminum cleaner and brightener with an unsurpassed blend of acids, surfactants, and solvents that cleans and brightens aluminum. Citri-Brite™ eliminates toxic concerns associated with hydrofluoric acid, enhancing your employees' safety and your company's future. Citri-Brite™ replaces your existing hydrofluoric acid brightener at a competitive price. It is also excellent as the first step in Two Step wash systems.

AT A GLANCE

- Safer than traditional Aluminum Brighteners
- Biodegradable
- Fast and Easy Rinsing

APPLICATIONS

Works great on Polished Aluminum

Cleaning and Aluminum Brightening

Wonderful Two Step Product

Removing road film and Aluminum Oxide

SPECIFICATIONS

Physical Form: Liquid

pH (1% dilution): 2.0 - 3.0

Recommended Dilution: 10: up to 30:1

DOT Class: Corrosive

Color: Green

Fragrance: None

SCATRI-BRITE™

Fast Acting Heavy Duty Cleaner And Aluminum Brightener

DIRECTIONS:
For best results: Dilute 1 part of product to 20 parts of water. Apply to surface and rinse with fresh water at high pressure.

INGREDIENTS:
Water (7732-18-5), Citric Acid (5949-28-1), Phosphoric Acid (134-85-7), Phosphorous Acid (13798-64-3), Sulfuric Acid (7664-93-9), 2-Butoxy Ethanol (111-76-2), and Non-ionic Surfactants.

DESCRIPTION:
A fast-acting, heavy duty, citric acid cleaner and aluminum brightener capable of removing grime, road film, and diesel smoke from aluminum trailer bodies.

CAUTION:
Will dull polished metals. Keep product from these surfaces. Make sure product will not be applied to equipment.

HAZARD WARNING:
WARNING! Corrosive Material! Causes severe burns and tissue destruction upon direct skin and eye contact. Ingestion causes severe burns to mouth, throat and stomach. Inhalation may cause death. When handling wear acid resistant gloves, apron, boots and a full chemical face shield.

FIRST AID:
In case of skin contact, wash with soap and water. In case of eye contact, flush immediately with massive quantities of cold water, lifting upper and lower eyelids occasionally. **Prompt medical attention is absolutely necessary.** Remove and wash clothing before reuse. If inhaled, remove to fresh air, give artificial respiration if not breathing. If swallowed do not induce vomiting. If conscious, give lots of water or milk. Do not give anything by mouth to unconscious or convulsing person. **In all cases of overexposure, get medical attention immediately.**

SPILL OR LEAK:
Avoid breathing vapors. Avoid contact with skin, eyes or clothes. Wear protective equipment. Neutralize with Soda Ash. Flush with plenty of water applied quickly to entire spill area. Notify proper authorities. Empty containers will retain product residue and vapors. Handle empty containers as if they were full.

ATTENTION: Refer to our MSDS regarding handling and disposal of this product.

IN CASE OF EMERGENCY: Call Chemtrec day or night for assistance and information concerning spilled material, fire, exposure, and other accidents. **1-800-424-9300**

Manufacturer warrants this product to its label description. MANUFACTURER MAKES NO OTHER WARRANTY, EXPRESS OR IMPLIED, WHETHER OF FITNESS OR MERCHANTABILITY OR ANY OTHER MATTER RESPECTING THE PRODUCT; IN NO CASE SHALL MANUFACTURER OR SELLER BE LIABLE FOR CONSEQUENTIAL, SPECIAL, OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT. Manufacturer and Seller's liability shall be limited to return of the purchase price.

The above may be affected by state or local government restrictions or laws. Some states do not allow any limitations upon implied warranties of fitness and merchantability for certain products.

RESEARCH

Through R&D and field testing, KO Chemists combine creativity with technology to bring you products with the performance you require. Using our sophisticated KO lab we continually test new products, existing products, and our manufacturing processes for effectiveness and affordability. When a new product meets our requirements, it goes to a select group of end-users for real-world evaluation. Only after testing, evaluating, and re-testing is a KO product ready for distribution.
