CLEANING SYSTEMS

71 Series

SINGLE CHAMBER
SINGLE CONTROL

High Efficiency Stationary NG/LP Fired Pressure Washer

- Operates at **98% efficiency**
- **38% fuel savings** on average
- Reduces maintenance costs
- Lowers ventilation costs (CPVC)
- Reduces negative environmental impact

The **71-Series** utilizes one heat chamber, one water pump, and a single set of controls with up to 6 GPM flow. These are ideal for single gun operation. With a long list of exclusive features, this pressure washer is sure to exceed your particular needs and expectations.

A Closer Look at the Features:

- Powdercoated Enclosed Steel Cabinet**
Reduces maintenance costs by protecting internal parts.
- Panel Mounted Controls & Diagnostic Lights**
Accessible for your ease of use & monitoring.
- Adjustable Soap Control**
Allows your precise metering of expensive soap.
- Adjustable Temp. Control**
Allows your precise regulation of temperature.
- Stainless Steel Float Tank w/ Low Water Shut-off**
Saves repair \$ by maintaining the correct water level & protecting the system from damage.
- Pressure Relief Valve**
Prevents injury and cost due to an over-pressurized system.
- Exclusive Patented Exchange Technology**
Saves your hard earned fuel dollars & reduces your carbon footprint.
- Inlet Solenoid Valve**
Takes pressure off of internal parts extending their life & saving you \$.
- Heavy Duty Electric Motor**
Built strong to handle your roughest demands.
- Optional Clutch Drive**
Save money by lengthening the life of your pump.
- Industrial Strength Triplex Pump**
Lower maintenance costs due to long life & durability.
- Automatic Backdraft Damper**
Prevents backdraft from reaching machine components & entering your building.
- Remote Ready**
Allows for the easy addition of a remote to operate your machine from another location.
- 4" or 5" CPVC Venting**
Saving substantial venting costs.
- Exclusive Coil Design**
Heats your water quicker & more efficiently.
- Heavy Duty Cabinet & Formed Steel Legs**
Maintenance free durability.

Machines above shown with their easy access latching, removable steel compartment covers off.

FEATURES (not shown on breakout):

- ETL Listed
- Easy Access Latching/Removing Steel Compartment Covers
- Watertight Electrical Panel
- Laminate High Visibility Control Panel Overlay
- Hour Meter w/Break-In & Oil Change Alerts
- Automatic Shutdown Timer
- Low Water Shut-Off Protection
- Patented AaLadin Exchange Technology
- ASTM A53 Schedule 80 Steel Heating Coil
- Electronic Ignition
- Pressure Relief Valve
- Low Pressure Manifold Plumbing
- JIC Fittings For Leak Free Connections
- Trigger Gun Control
- Wire Braid Discharge Hose
- Quick Couple Stainless Steel Nozzles
