CHV Series WATER TREATMENT SYSTEMS

432 lb. 407 lb.

The tough, high gallon-per-minute centrifugal system blasts away mud and dirt allowing for an easier and less timely workload during the pressure wash cycle. The CHV is the perfect alternative to fire hoses and high volume water cannons. Producing 25 GPM at 500 PSI with a variable spray pattern, the CHV is extremely effective for mud removal and heavy washout application. It is the perfect choice for use with water reclamation systems and for customers who want to lower their water consumption. The industrial diaphragm pump can tolerate silty or reclaimed water.

MODEL NUMBER	DESCRIPTION		GPM @ PSI	HORSEPOWER	DIMENSIONS (LxWxH)	SI
CHV-0525-0ME	Cold water stationary electric belt driven pressure washer, 230V, 1Ø, 41.5A		25 @ 500	10.0	38in.x23.5in.x24in.	
CHV-0525-0ME	Cold water stationary electric belt driven pressure washer, 230V, 3Ø, 25.6A		25 @ 500	10.0	38in.x23.5in.x24in.	
CHV Series At	CCESSORIES:					
PART NUMBER	DESCRIPTION	FITS MODELS				
16-0440	Replacement gun - Replacement high volume long range gun with adjustable pattern from straight stream to cone mist	All models				
50-0185	Accessory hose reel - Add a hose reel for convenient storage of your hose; holds up to 200-feet of 34-inch hose	All models				
CHV Series O	PTIONS:					
PART NUMBER	DESCRIPTION	FITS MODELS				
CX-0072	300-gallon tank - 300-gallon tank with stand, suction hose and float included	All models				
CX-0073	460V, 3-phase - For when you have 460V of power available	All models				
CX-0074	18-in. stand - Raises unit off of ground	All models				
CX-0075	Remote box- For when unit is not near spraying location	All models
