

UNDERCARRIAGE CLEANERS

Hooks Up to Pressure Washer

Model – Bottom Feeder V2

Part # 18/ASE-0019

The Bottom Feeder V2TM utilizes a full stainless steel, 4 nozzle rotating assembly that covers approximately 24" of cleaning area.

The minimum clearance height required is a mere 5-1/2".

With the new telescopic handle, the Bottom Feeder V2TM is quite versatile and maneuverable.

With the New 4000 psi Trigger Gun and 4 Cleaning Nozzles, the operating pressure is up to 4000 psi.

Withstanding temperatures up to 250° F and utilizing almost any type of liquid chemical or acid solution the Bottom Feeder V2TM is a must for anyone interested in maintaining a clean, well cared for vehicle.
