

EUCALYPTUS MINT HIGH PRESSURE

FRAGRANCED HIGH PRESSURE

DESCRIPTION

This concentrated high pressure detergent has amazing fragrance and foam. Designed for use in self-serve applications, this moderately alkaline detergent will give customers the performance and show they expect.

USAGE INSTRUCTIONS

This product is ideal for high pressure detergent (commonly referred to as wash soap) in self-serve applications. It can be diluted 2 different ways. First it can be pre-diluted and then diluted further into high pressure for final dilution of 500-600:1. Or it can be fully diluted and then pulled directly by the high pressure pump. For greater foam, increase strength and for reduced foam decrease strength.

FEATURES

- Highly concentrated for economical use
- Phosphate free
- Amazing fragrance and foam
- Compatible with all equipment
