

# PS-105

Low pH Cleaner / Metal Brightener

## DESCRIPTION

Designed for industrial use only, this low pH presoak is extremely hot! This product is blend of inorganic acids designed to brighten and clean metal surfaces (such as aluminum, chrome stainless steel) without damaging them. This aggressive product contains no HF or Ammonium Bifluoride, but it is plenty strong so be careful.

## USAGE INSTRUCTIONS

This product should be applied in a two-step cleaning process. When applied first it is run between 40-75:1 (85-155 drops). Apply in small sections working from bottom up to reduce streaking. Allow to sit no more than 2-3 minutes before rinsing or next application. Light scrubbing will further help remove stubborn debris and eliminate streaking. For more information contact your sales representative.

## FEATURES

- Contains no HF or ABF
- Increased shine to metal and glass
- Extremely strong
- Effective on all metals

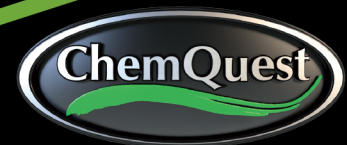

## SIZES AVAILABLE

5-gallon pails	Code: 10-10023-005
15-gallon drums	Code: 10-10023-015
30-gallon drums	Code: 10-10023-030
55-gallon drums	Code: 10-10023-055

## SPECIFICATIONS

COLOR:	CLEAR
