### 4.1 Description of first aid measures

First-Aid measures general Never give anything by mouth to an unconscious person. If you feel unwell, seek medical

advice (show the label where possible).

First-Aid after inhalation IF INHALED. Remove victim to fresh air and keep at rest in a position comfortable for breathing.

Use artificial respiration and oxygen if needed. If irritation persists, seek medical attention.

First-Aid after skin contact IF ON SKIN. IF ON SKIN (or hair). Remove/Take off immediately all contaminated clothing.

Rinse skin with water/shower. Immediately call a POISON CENTER or doctor/physician.

Immediately rinse with plenty of water (for at least 15 minutes).

First-Aid after eye contact IF IN EYES. Rinse cautiously with water for several minutes. Remove contact lenses if present

and easy to do – continue rinsing. Rinse immediately and thoroughly, pulling the eyelids well away from the eye (15 minutes minimum). If irritation persists, seek medical attention.

First-Aid after ingestion IF SWALLOWED. Rinse mouth. Do NOT induce vomiting. Dilute stomach contents by drinking

water. If vomiting occurs spontaneously, keep head below hips to prevent breathing vomit into

lungs. Call physician immediately.
