

SSW-20.01

Drying Agent

DESCRIPTION

Known as a "sheeter" this berry scented drying agent breaks water in large sheets reducing the effect of "small sticky droplet syndrome." This product works best in tunnels where ample space is available between application and the blowers. It also works great in self-serve applications under both high and low pressure.

USAGE INSTRUCTIONS

This product is ideally applied under low pressure application in tunnel and in-bay automatic settings. Begin application at 200-315:1 (4-6 drops). For high pressure application apply at 400-650:1 (2-3 drops). In applications where greater amounts of rinse water are applied to the vehicle stronger dilutions of product may be required.

FEATURES

- Greatly improves drying capability
- Reduction of "small sticky droplet syndrome"
- New drying agent technology
- Pleasant berry fragrance

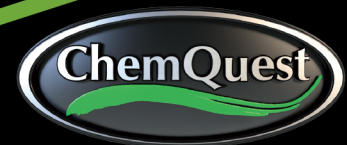

SIZES AVAILABLE

5-gallon pails Code: 10-50113-005
15-gallon drums Code: 10-50113-015
30-gallon drums Code: 10-50113-030
55-gallon drums Code: 10-50113-055
