

Technical Data Sheet

ALK-O2 WASH OXYGENATED POWDERED DETERGENT

Description

This industrial strength powdered detergent. For heavy duty cleaning use with ALK-60 or ALK-85

Features

Alk-O2 is loaded with oxygen producing detergents to break down proteins and carbohydrates left behind from the brewing process.

Contains water treatment additives for use with hard water.

Caution: Do not mix with Chlorine cleaners, as chlorine gas can be produced.

Applications

Use for General cleaning of boil kettles, fermentation tanks and bright tanks, prior to sanitation.
