

Technical Data Sheet

SURFACE BRIGHT ACID FOAMING DETERGENT

Description

A low pH foaming equipment and tank cleaner. With a blend of organic and inorganic acids, it cleans and de-scales while brightening both stainless and aluminum surfaces.

Features

High Foamer Leaves the vehicle looking shiny Contains phosphoric acid.

Applications

For foam cleaning tanks, vessels and equipment, foam on between 36 to 64:1. Rinse with treated water if possible. Use with Total for best results.

Specifications

Color: BLUE

Fragrance: NONE

Foam: WHITE

pH: 0.70

Proper Shipping Name:

UN1805, PHOSPHORIC ACID SOLUTION, 8, III

HMIS

Health: 3, Flammablity: 0, Reactivity: 1

Personal Protection: X

Titration Information: Sample Size: 8 ml.

Indicator: Phenolphthalein 0.1% solution. Reagent: 0.5 N Sodium Hydroxide

Directions

1. Add in 3 drops of indicator in test sample. Will

stay clear.

2. Add drops of reagent until a strong pink color appears.

| Drop Count | Oz/Gal of | |
|-------------|-----------|------------|
| (Titration) | water | Ratio to 1 |
| 11 | 1.32 | 96 |
| 12 | 1.44 | 88 |
| 13 | 1.56 | 81 |
| 14 | 1.68 | 75 |
| 15 | 1.80 | 70 |
| 16 | 1.92 | 66 |
| 18 | 2.16 | 58 |
| 20 | 2.40 | 52 |
