Product at Use-Dilution

Within the present knowledge of the supplier, this product does not contain any hazardous in gredients in quantities requiring reporting, in accordance with local regulations.

4.	First aid measure	IS A CONTRACT OF THE OTHER OF THE			
4.1	Description of first-aid measures				
	General advice:	Show this material safety data sheet to medical personnel. Do not leave affected person un attended. Isolate exposed apparel for laundry before re-use.			
	Eye contact:	Rinse eyes with water. Remove any contact lenses, and continue flushing eyes with running water for at least			
		15 minutes. Hold eyelids apart to ensure rinsing of the entire surface of the eyes and lids with water. Seek medical attention if irritation develops or persists.			
	Skin contact:	Take off contaminated clothing and shoes immediately. Wash affected areas with plenty of water. Seek medical attention if irritation develops or persists.			
	Ingestion:	Do NOT induce vomiting. Do not give anything by mouth to an unconscious or convulsing person. Rinse mouth with water. Seek medical attention.			
	If inhaled:	Remove from area to fresh air. Seek medical attention if respiratory irritation develops or if breathing becomes difficult.			
	Product at Use-Dilution				
	Eye contact:	Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation persists.			
	Skin contact:	No known effect after skin contact. Rinse with water for a few minutes.			
	Ingestion:	Get medical attention if symptoms occur			
	If inhaled:	No special measures required. Treat symptomatically.			
4.2	Most important s	ymptoms and effects, both acute and delayed			
	Risks:	The most important known symptoms and effects are described in the labeling (section 2.2) and/or in section 11. Corrosive effects. Symptoms may include stinging, tearing, redness, swelling and blurred vision. Permanent eye damage including blindness could result. Prolonged or repeated skin contact may aggravate existing skin conditions. In halation of mists may aggravate existing chronic respiratory conditions such as asthma, emphysema or bronchitis.			
		Maquat 256-NHQ (Basic Formula) Page 2 of 8			

4.3

Indication of any immediate medical attention and special treatment needed Note to physician: All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred. Treat symptomatically.

5.	Firefighting measures	
Flash P	Point and Method: None	
5.1	Extinguishing media Suitable extinguishing media:	The product is not flammable Use media suitable for the material that is burning
5.2	Un suitable extinguishing media: Special hazards arising from the substance Special hazards during fire fighting: On combustion or on thermal decomposition:	No data available or mixture Container may rup ture on heating May include carbon oxides, nitrogen oxides
5.3	Advice for firefighters Special protective equipment for firefighters: Specific firefighting methods:	As in any fire, wear NIOSH/MSHA approved, pressure-demand self-contained breathing apparatus and full protective gear. No special methods required. Move containers from area if it can be done without risk. Cool fire-exposed containers with water from side. Contain the extinguishing fluids by diking.
6.	Accidental release measures	
6.1	Personal precautions, protective equipment	and emergency procedures
6.2	Spill area may be slippery. Wear appropriate pr Environmental precautions	rotective equipment (See Section 8).
6.3	metal waste container for c	soil and surface waterways cleaning up Absorb spills with vermiculite, fuller's earth, or sand. Shovel up and place in a non- lisposal. Dike large spills with soil or sandbags to contain it and prevent its spread. abeled, closed containers for disposal.
	Decontamination/ cleaning: Wash non-recoverable rem Recover the cleaning wate	nainder with large amounts of water. Clean contaminated surfaces thoroughly. r for subsequent disposal.
	Disposal: Dispose of in accordance Additional advice: Spill area may be slippery	with local regulations
	Product as Use-Dilution Use a water rinse for final clean-up	
6.4	Reference to other sections No information available	
7.	Handling and storage	
7.1		not require any specific or particular measures
	splash and sa or swa	appropriate protective equipment in cluding long chemical resistant gloves, chemical a goggles and protective footwear. Handle in accordance with good industrial hygiene afety practice. Do not spray toward face. Wash affected areas after use. Do not taste allow. Avoid breathing vapors or mists. Use only with adequate ventilation. Product e may remain on/in empty containers. All precautions for handling the product must
	be use	in handling the empty container and residue. FOR COMMERCIAL AND STRIAL USE ONLY.
	Product at Use-Dilution Avoid contact with eyes, skin and clothing. Was	sh thoroughly after handling.
7.2	Conditions for safe storage, including any in Technical measures for storage: Does r	
	Storage conditions Recommended: Keep oupright	container tightly closed. Opened containers must be carefully resealed and kept It to prevent leakage.
	In compatible products: Hazard in com	dous reactions may occur on contact with certain chemicals. Refer to the list of patible materials section 10: "In compatible materials"
	Product at Use-Dilution Keep out of reach of children. Keep container ti	ahtiv closed.
7.3	Specific end use(s) No information available	

8. Exposure controls/personal protection

Introductory remarks:

These recommendations provide general guidance for handling this product. Because specific work environments and material handling practices vary, safety procedures should be developed for each intended application. While developing safe handling procedures, do not overlook the need to clean equipment and piping systems for maintenance and repairs. Waste resulting from these procedures should he handled in accordance with Section 13: Disposal considerations.

Assistance with selection, use and maintenance of worker protection equipment is generally available from equipment manufacturers

8.1 Control parameters

Comp	onents	Value	Control parameters	Basis
	portable			
2	Exposure controls			
	Control measures			
	Engineering measures:	Goodge	eneral ventilation should be	sufficient to control airborne levels. Respiratory protection is not
		required	if good ventilation is maintain	ained.
	Personal protective eq Respiratory protection:		tions where mists are dene	rated, wear a NIOSH/MSHA approved respirator that has been
	Respiratory protection.	selected	by a technically qualified n	erson for the specific work conditions.
	Hand protection:	Wearlo	a chemical resistant alove	s. Observe instructions regarding permeability and breakthrough
	nand protection.			gloves. Also take into consideration the specific local conditions
		under w	hich the product is used, su	ich as the danger of cuts, abrasion and contact time. Gloves
		should b	e discarded and replaced if	f there is any indication of degradation or chemical breakthrough
	Eyeprotection:		emical splash goggles.	
	Skin and body protection			hemicals, and impervious clothing. Choose body protection
		accordin	ig to the amount and conce	ntration of the substances in the workplace.
		5		
	Hygiene measures:	Persona	Inygieneis an important w	ork practice exposure control measure and the following genera

11. Toxicological information

Product Summary:

Causes severe skin burns and serious eye damage. Harmful if swallowed. Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea. Ingestion may produce burns to the lips, oral cavity, upper airway, esophagus and possibly digestive tract. Vapors and spray mist may irritate throat and respiratory systemand cause coughing.

No data available for the teratogenicity, mutagenicity, or reproductive to xicity of this product. No data available to designate the product as causing specific target organ to xicity through repeated exposure. No data available to designate product as an aspiration hazard.

Information on likely routes of exposure:

Eyecontact	Corrosive. Causes serious eye damage. Symptoms may include pain, burning sensation, redness, watering, blurred vision
	or loss of vision.
Skin contact	Corrosive. Causes severe burns. Symptoms may include burns, blisters, redness and pain (which may be delayed).
Ingestion	Harmful is swallowed. Causes burn s/serious damage to mouth, throat and stomach. Symptoms may include vomiting,
	nausea, and/orfeeling of general un wellness.
Inhalation	May cause irritation and corrosive effects to nose, throat and respiratory tract. Symptoms may include coughing and
	difficulty breathing.
Sensitization	No known effects
