

RLC

Bay Cleaner

DESCRIPTION

Designed to be used as a multi-purpose cleaner for wash bays and equipment. RLC is highly effective at removing rust, lime deposits and calcium build-up. This product is a great maintenance cleaner for windows and blower housings where calcium and rust are commonly found.

USAGE INSTRUCTIONS

Cleaning instructions will vary by application. In general, soft warm water will improve cleaning results, but it is not required. For lighter cleaning applications dilute 10-15:1. For moderate cleaning applications dilute 5-10:1. For heavy duty applications dilute 1-5:1. Always test in a small inconspicuous spot before applying to entire surface to test efficacy.

FEATURES

- Highly effective on Rust
- Safe on glass, metal and painted surfaces
- Hard water compatible
- Removes calcium and lime deposits

SIZES AVAILABLE

5-gallon pails Code: 20-00063-005
